

Hello Folks!

Hope you've all had a wonderful week!

After a brief hiatus, I am back and working towards transforming NDG into the best community in the world. I have added a new tab to the NDG Project website; [Updates](#). From this page you will be able to keep up on all recent happenings, like the [G3 Summary](#).

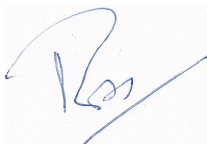

Over the course of the last several weeks, I made great strides on developing The NuVoWay and NDG Project concepts. With this said, something which I believe is essential for this is that it be possible to deliver it to every person in every community across the world free of charge, forever. This may sound impossible, but I do not believe it is. The avenues I am looking to pursue to accomplish this are three fold:

- **Governments** - as a first step I am looking to have all three levels of government endorse and finance a Basic Income Program as well as an initiative aimed at helping every person to live out their best life. You can read the letter sent to Justin Trudeau, Francois Legault and Valerie Plante here: [Leaders Letter](#). Please watch the video on Basic Income, sign and share the petition.
- **Gift Economy** - we already have an initiative such of this in NDG, but it is small. I am looking to help them build this up and get it much more active. Read about this and sign up here: [Buy Nothing NDG](#)
- **Moneyless Society** - To me this is the ultimate long term solution. Please read the following pages/sites: [Moneyless Society](#). [Resource-Based Economy](#).

With the [NDG Project Plan](#) the objective is to redesign society for ideal outcomes in every area of human and animal life. As I/we progress on implementation of this plan, at the same time we will be looking to implement components of the Governmental, Gift Economy and Moneyless Society plans as they apply, in the hopes of creating a better life for every person in our community moving forward. Won't you join my/us in this mission?!

I hope you have a wonderful week!

All my best,

rJ

Your life is your message
