

I hope this message finds you all well and that you have had a great week!

Lots has been happening behind the scenes in the last couple of weeks. Below is a brief synopsis of the three levels we are pushing forward with:

Everything I am doing comes directly from God - the street ministry, NDG Project, The NuVoWay as well as G3. This mission I am on is His mission through me - and you - and every other person who chooses to join. This is God's way of brining Heaven to earth - ultimately every square mile of earth.

To explain the 3 areas of this initiative, please see below:

- **NDG Project** is a means of transforming our community through love. With this it is my intention to remedy all the ills of society and to establish a path toward making, first NDG, and ultimately every community, Heaven (on earth). Here is an idea of what we will set up effective July 1, 2023: [Montreal West End](#).
- **The NuVoWay** - this is how we will reach **every** person in **every** community we enter. It is tactical and based on developing a connected network of 100 professionals (NuVoWay LifeStyle Coaches) down to every person in every community and setting up a means to communicate with everyone regularly, through person to person contact as well as via a weekly e-newsletter. If you know any young people who love the area of holistic health, fitness and LifeStyle, please send them this link: [Montreal 2023](#)
- **G3 Ministries** - G3 is the global company. It stands for God's Genuine Gift, which is the second coming of Christ and the descent of heaven to earth for every person who has ever lived or been conceived, for eternity! If you go through the site you will see other elements of the program which may or may not have been addressed.

I am in no hurry. My complete intention is to do it right the first time and to involve all those who God leads to me - developing something which has never been experienced previously by mankind. Every person who joins our initiative will be a role model for society and as such I have some very stringent conditions for each:

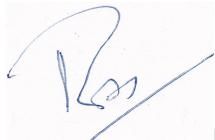

- They must be at least vegetarians, preferably vegans.
- They must not wear or possess anything made from animal products.
- They must commit 50% of their total earnings to those less fortunate. All monies will go into the [NuVoWay Foundation](#) whose aim is to ultimately eliminate all scourges on earth and to bring complete equality to every person on the planet.
- They must drive electric vehicles if they drive at all.
- They must hold themselves to a higher standard in every area of life.

While the plan is to perfect the program in Montreal's West End in year one, we have aggressive objectives to duplicate our program for years two (50 North American Territories) and three (at least 50 more Global Territories).

Every day the vision becomes clearer - and larger!

Hope you all have a wonderful week ahead!

All my best,

rJ
